

Graduate School and Career Outcomes by Study Area

Prescott College graduates from our bachelor's, master's and doctoral programs are sought after by graduate schools and by employers for their highly effective mix of practical skills and theoretical knowledge demonstrated through professionally-relevant capstone projects. In their coursework, internships and capstone projects, students develop professional networks of mentors within and outside of the College that directly support their career success. Graduates of our undergraduate programs often go on to complete graduate degrees. Our interdisciplinary approach to the liberal arts and professional programs at all degree levels create broad career opportunities for our graduates.
